## 2.4 Online Public Access Catalog

The Daybreak University Library uses the Library World Automated System for its online public access catalog (OPAC). The following inserts show how the screen will appear on the computer.

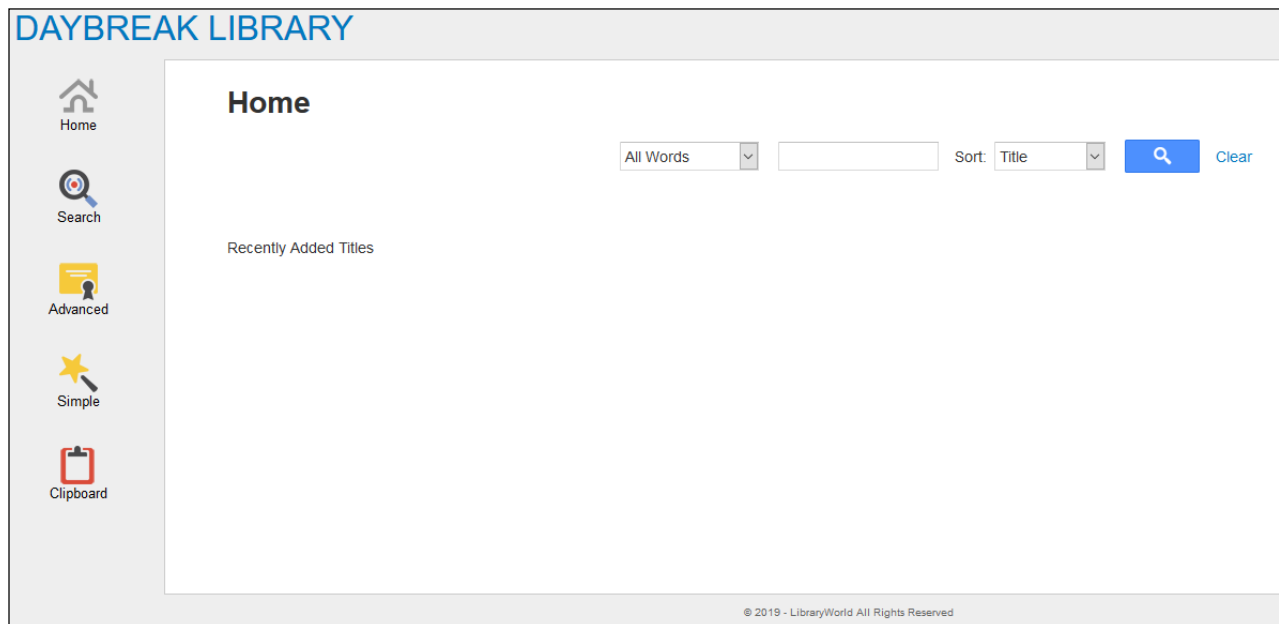

Click on the “Daybreak Library” menu at the Daybreak University website. This will take you to the Library webpage.

Click on the “LIBRARY” menu at the Daybreak University website. This will take you to the Library Online Catalog.

Choose the Library on the Daybreak University homepage ([www.daybreak.education](http://www.daybreak.education)). You may search the books by author, title, or subject. Borrower ID and password are not required to search the Library Catalog of in-house materials.

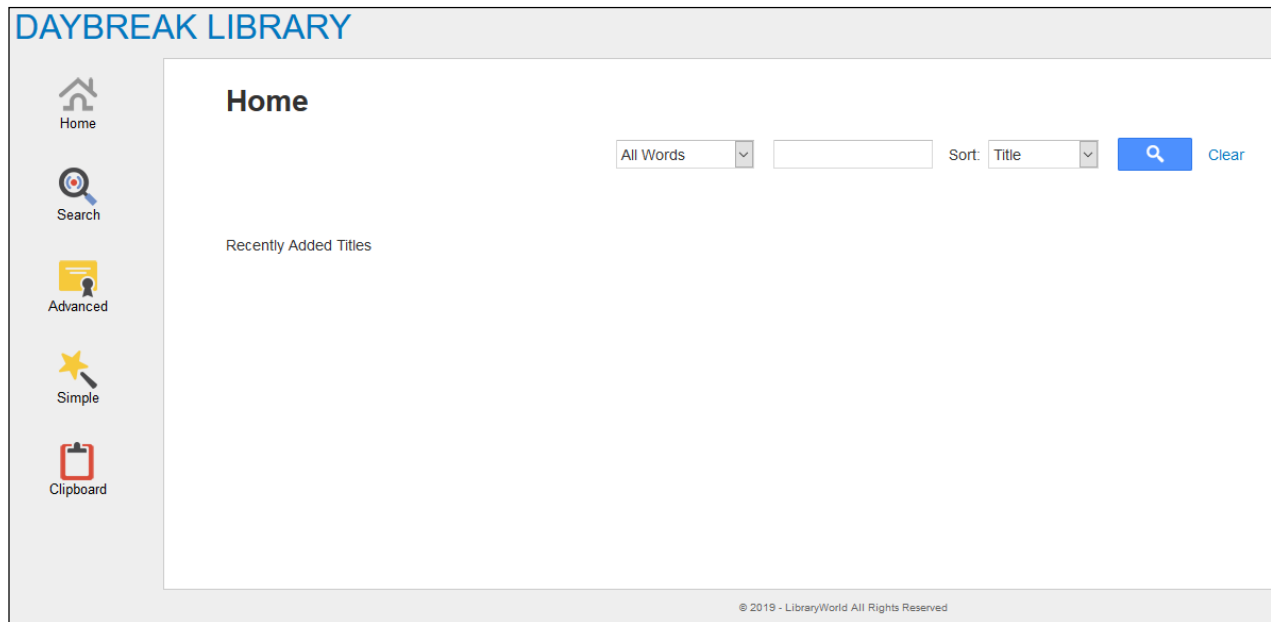

Daybreak University Library web page can be accessed outside the Library through:

<https://opac.libraryworld.com/opac/signin.php?libraryname=DAYBREAK%20LIBRARY>

The next screen is the basic search screen. Enter the word or search term you wish to search. A **KEYWORD** search is the default search mechanism, and may be faster if you do not have specific information. If you wish to search by **AUTHOR**, **TITLE**, or **SUBJECT**, click the appropriate radio button. An **AUTHOR**, **TITLE**, or **SUBJECT** search is good to use when you know specific

information. Feel free to ask the librarian for specific subject headings. In the case of authors, the last name should be given first.

The search system is extremely spelling sensitive, so if you do obtain results when you execute your search, please check your spelling.

Once you've made your selections, click "search" to begin your search.

You will then see a list of your search results. From here, you may look at the detail of each particular item. The shelf status (whether the item is on the shelf or checked out) will display to the right.

By selecting one of the titles from the results list, you will see more detail regarding the item. The author and title information is given, as is the call number and other bibliographic information. From here, you can select "Show card" to see the information about the item in a card-catalog format. You may select "Show copies" to see additional information about a particular item, including shelf status, due date, and other information.

From this screen, you can also place an item that is checked out, on hold, or create a list of titles for a bibliography by clicking on the appropriate buttons to the right.

If you cannot find the materials you are looking for, please ask Library staff member for assistance.

### 3. THE CLASSIFICATION SYSTEM

#### 3.1 Library Congress Classification System

The Daybreak University Library uses the Library of Congress classification system (LC).

This system of classification is used by most college and university libraries. The LC system arranges materials into subject areas and allows books or media on the same subject to be placed together on the shelves. Each item is assigned a call number which consists of a series of letters and numbers:

**EXAMPLE:**

**GV** broad subject--RECREATION

**995** further identifies the subject

**.B37** B is the first letter of the author's last name, 37 further identifies the Author

Once you have identified a call number, you can locate materials in separate areas of the Library. Generally, these areas are circulation, reference (REF or R) and media (VCR, VCT, DVD, EQ). NOTE: Oversize books are shelved in a separate area. Ask for assistance when looking for these books.

Reference and audiovisual materials let you know that they are shelved separately from circulating books because they have REF or other collection code above the call number. When you find the correct area, each shelf has designated signs with letters/numbers on the end panels. Locate the first letter of the call number (B for example) on the end panel. Then look for the second letter, if there is one. A single letter B would come before BC. BJ would come before BT, etc.

Follow these two rules when you encounter decimals in a call number:

1. Numbers that follow a decimal are read as whole numbers.
2. Numbers that follow a decimal are read as decimals.

**EXAMPLE:**

B	BC	BJ	BT	BT	MT
123	11	222	160.4	16.48	881.7
.R4	.K2	.T31	.T62	.Z21	.A43

## **5. REFERENCE SERVICES**

### **5.1 Reference Collection**

Books in this area contain specific factual information and are not usually read cover-to-cover. Information in a reference work, which may be single or multi-volume, is usually presented alphabetically or topically, often with thorough indexes at the end of the work and instructions for use at the beginning. The staff will gladly assist students in locating reference materials.

### **5.2 Using Reference Materials**

Reference materials are books that can be used by itself as a source of information without use of a second source of information. (Although a reference book may refer or lead to another source information, which is not its main purpose.) Reference books usually include access components such as indexes that lead to information elsewhere in the book itself, rather than to other sources of information. In many cases, reference books cannot be used effectively without using access points included in the included in the reference book. It is therefore, important to look for indexes and other access keys in reference books. The Library's reference collection contains many books that will be useful in research. The librarians can help you identify and use the most useful of reference books such as Dictionaries, Encyclopedias, Biographical Sources, Almanacs, Statistics, Specialized Encyclopedias, Chronologies, Atlases, Handbooks, Directories, and Compilations.

### **5.3 Multimedia Services**

Multi-media items available for use in the library include DVDs, VCR Cassettes, transparencies, audio-cassettes, slides, records, and other items. These are for use in the Library, and can be located like any other item through use of the OPAC card catalog. Please contact with the Library staffs for assistance in finding these materials.

Equipment items are loaned to faculty for classroom use. An AV Materials Reservation Form is available for faculty use on the library web site. Faculty is encouraged to reserve equipment at least two days in advance. Please ask your campus librarian for additional information.

## **6. SPECIAL LIBRARY SERVICES**

### **6.1 Interlibrary Loan**

Interlibrary loan is the process by which a library requests material from or provides material to another Library. The purpose of interlibrary loan is to obtain material not available in the user's local Library.

#### **Borrowing Restrictions**

The library determined borrowing restrictions by the type of materials or any other conditions to allow circulation.
