10. How can we improve our program in terms of a diverse and inclusive learning environment?

A great network has been formed, so it would be great to use this network to meet students from various different countries.

11. Please provide feedback about the curriculum while you were a student in the program.
(re: Academic Courses, Clinical Component)

It was a very helpful curriculum. It was good to be able to experience a connection between theory and clinical practice.

12. Please provide feedback about the program mission, goals, and student learning outcomes while you were a student in the program.

It was good to be able to learn that therapists should continue to reflect and be awake so that we can become a tool for counseling, what kind of attitude a therapist should have, and to have a clinical practice based on scientific evidence referring to theories and studies .

13. Please provide feedback about the following environmental supports during the time you were a student:

- A) Fiscal and Physical resources
- B) Technological resources
- C) Instructional and Clinical resources
- D) Academic and Student Support Services

Financially, I received a scholarship. Each student was presented with a roadmap, and the head professor provided a lot of education and support.

14. Please provide any feedback you would like regarding the program.

10. How can we improve our program in terms of a diverse and inclusive learning environment?

Since most of the students are Koreans living in Korea, it seems that consideration for Koreans in the US is insufficient.

11. Please provide feedback about the curriculum while you were a student in the program.
(re: Academic Courses, Clinical Component)

It was nice to be able to learn from different professors.

12. Please provide feedback about the program mission, goals, and student learning outcomes while you were a student in the program.

It seems that the class was led according to the mission and goal, and it seems to have good results for learning.

13. Please provide feedback about the following environmental supports during the time you were a student:

- A) Fiscal and Physical resources
- B) Technological resources
- C) Instructional and Clinical resources
- D) Academic and Student Support Services

I think all of the students received benefits for A,B,C,and D

14. Please provide any feedback you would like regarding the program.

I hope the scholarship will be applied to clinical practice as well.

10. How can we improve our program in terms of a diverse and inclusive learning environment?

Compared to the current history and scale of the school, I think it's been great. One thing that needs improvement is the quality of internship (practicum) .

11. Please provide feedback about the curriculum while you were a student in the program.
(re: Academic Courses, Clinical Component)

I hope the curriculum will be more diverse in the future.

12. Please provide feedback about the program mission, goals, and student learning outcomes while you were a student in the program.

For each subject I learned, it felt unfamiliar and difficult like the road I'm traveling on for the first time, but with the help of my seniors, colleagues, and especially professors doing their best, I was able to achieve my goals successfully. I also heard from other students that they experienced similar things, as well.

13. Please provide feedback about the following environmental supports during the time you were a student:

- A) Fiscal and Physical resources
- B) Technological resources
- C) Instructional and Clinical resources
- D) Academic and Student Support Services

"A) Since it was a school that was only four years old, I bet they need a lot of financial support. Despite that, I was able to receive a lot of financial support via their scholarship program.

C) It was good to be able to receive internship and supervision through schools in the United States, where clinical trials are impossible without a license."

14. Please provide any feedback you would like regarding the program.

10. How can we improve our program in terms of a diverse and inclusive learning environment?

I was able to learn about real diversity by taking diversity classes with students from various backgrounds such as races, ages, religions, and languages. For further improvements, respect for diversity can be included in the curriculum outside of diversity classes.

11. Please provide feedback about the curriculum while you were a student in the program.
(re: Academic Courses, Clinical Component)

Curriculum was really good. It was a well-organized curriculum to help me grow as a marriage and family therapist.

12. Please provide feedback about the program mission, goals, and student learning outcomes while you were a student in the program.

I heard an explanation about the mission or goal when entering the school, and this was explained at the opening ceremony or the start of class so that I could be continuously reminded.

13. Please provide feedback about the following environmental supports during the time you were a student:

- A) Fiscal and Physical resources
- B) Technological resources
- C) Instructional and Clinical resources
- D) Academic and Student Support Services

Everything above was well supported, and I thought it would be nice to have a counseling center especially for students.

10. How can we improve our program in terms of a diverse and inclusive learning environment?

It is good as it is. Students in various cultural backgrounds were respected by faculty and other students.

11. Please provide feedback about the curriculum while you were a student in the program.

(re: Academic Courses, Clinical Component)

The curriculum was excellent. I was able learn the MFT models and skills. Also, I appreciated the self of the therapist reflection in many courses.

12. Please provide feedback about the program mission, goals, and student learning outcomes while you were a student in the program.

the MFT program mission and goals are good. I respect them. also, i was able to receive my progress in my clinical work.

13. Please provide feedback about the following environmental supports during the time you were a student:

- A) Fiscal and Physical resources
- B) Technological resources
- C) Instructional and Clinical resources
- D) Academic and Student Support Services

There were many financial supports including assistantships, scholarships, etc. The online library was good. Each term, I received my progress in my coursework and clinical work.

14. Please provide any feedback you would like regarding the program.

Overall, the MFT program is good. The professors were willing to hear students' feedback and suggestions. Thank you.
